# Dementia and Society

## An Interdisciplinary Approach

Edited by **Mathieu Vandenbulcke**

*KU Leuven, Belgium*

**Rose-Marie Dröes**

*Amsterdam University Medical Centre*

and **Erik Schokkaert**

*KU Leuven, Belgium*

Dementia is increasingly being recognised as a public health priority and poses one of the largest challenges we face as a society. At the same time, there is a growing awareness that the quest for a cure for Alzheimer's disease and other causes of dementia needs to be complemented by efforts to improve the lives of people with dementia. To gain a better understanding of dementia and of how to organize dementia care, there is a need to bring together insights from many different disciplines. Filling this knowledge gap, this book provides an integrated view on dementia resulting from extensive discussions between world experts from different fields, including medicine, social psychology, nursing, economics and literary studies. Working towards a development of integrative policies focused on social inclusion and quality of life, *Dementia and Society* reminds the reader that a better future for persons with dementia is a collective responsibility.

Introduction: Mathieu Vandenbulcke; 1. Different perspectives on dementia; 2. From history to intervention: a socio-cultural analysis of dementia stigma; 3. Personhood, identity, and autonomy; 4. Living meaningfully with dementia; 5. Quality of life of persons with dementia: different disciplinary perspectives; 6. Living with dementia: relationships, intimacy, sexuality, and care; 7. Informal care for persons with dementia: characteristics and evidence-based support interventions; 8. Risk factors and non-pharmacological prevention of dementia; 9. An empowering dementia environment; 10. The impact of the covid-19 pandemic on the well-being of people living with dementia; 11. Care planning and the lived experience of dementia: establishing real will and preferences beyond mental capacity; 12. Societal and ethical views on end-of-life decisions in; 13. Driving and; 14. Social and private costs of dementia care.
